## **BOOK SYNOPSIS**

As much personal journal as investigative journalism, this second edition traces the worsening developments at Fukushima Daiichi during the first year following the nuclear disaster. Often poetic in tone and philosophic in scope, this day-to-day reportage is peppered with the author's reflections and dramatic monologues as she investigates the public's willing blindness toward the nuclear power industry's disregard for public safety in the pursuit of profit. The book offers a unique perspective and attempts to come to terms with Fukushima's catastrophic consequences on the planet.
