BOOK SYNOPSIS

How can teachers meet the challenges of engaging and educating all students, from those who are gadget-toting and plugged-in to those who are language learners or economically distressed and everyone in between? How can you help students learn what they need to know when the world and all that's in it is changing rapidly?

Standards and high-stakes testing haven't answered the call, but you can.

Transformational Teaching in the Information Age explores the power of placing students at the center of teaching and learning. The shift from simply teaching content to focusing on and teaching individual learners allows teachers to inspire students to be independent, imaginative, and responsible learners for life. These teachers are transforming education, lives, and opportunities for their students. A transformational approach to teaching results in a high-quality education for today's learners. Citing theory, research, practice, and their own experiences in teaching K-18 students, Tom Rosebrough and Ralph Leverett build a convincing case for the primacy of student-teacher relationships in productive classrooms. Knowing students well is critical to teaching to their needs. Education cannot be just an effort to cover content, pass standardized tests, and achieve adequate yearly progress. To serve the next generation well, it must be about helping each student develop the knowledge, skills, and attitudes to live a uniquely satisfying life in the face of myriad changes. Thomas R. Rosebrough is executive dean of the College of Education and Human Studies at Union University and professor of education. He has taught elementary students through doctoral student candidates in public and private schools. Ralph G. Leverett is program director for the masters of education program at Union University and professor of special education. He has taught students at all levels in public and private schools, and is a speech-language pathologist.

TRANSFORMATIONAL TEACHING IN THE INFORMATION AGE MAKING WHY AND HOW WE TEACH RELEVANT TO STUDENTS - Are you looking for Ebook *Transformational Teaching In The Information Age Making Why And How We Teach Relevant To Students*? You will be glad to know that right now

Transformational Teaching In The Information Age Making Why And How We Teach Relevant To Students is available on our online library. With our online resources, you can find *Applied Numerical Methods With Matlab Solution Manual 3rd Edition* or just about any type of ebooks, for any type of product.

Best of all, they are entirely free to find, use and download, so there is no cost or stress at all. *Transformational Teaching In The Information Age Making Why And How We Teach Relevant To Students* may not make exciting reading, but *Applied Numerical Methods With Matlab Solution Manual 3rd Edition* is packed with valuable instructions, information and warnings. We also have many ebooks and user guide is also related with *Transformational Teaching In The Information Age Making Why And How We Teach Relevant To Students* and many other ebooks. We have made it easy for you to find a PDF Ebook without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with *Transformational Teaching In The Information Age Making Why And How We Teach Relevant To Students*. To get started finding *Transformational Teaching In The Information Age Making Why And How We Teach Relevant To Students*, you are right to find our website which has a comprehensive collection of manuals listed.
